# BACTERIOLOGICAL INCUBATOR

## ECOPLUS- FORCE CONVECTION

### PRODUCT FEATURES

- Horizontal type, Batch top model high space utilization and good temperature uniformity
- Temperature range from Ambient +5°C to 60°C
- Double walled construction.
- Inner chamber made of Stainless Steel 304.
- Exterior body made of M.S sheets powder coated.
- Gap between two walls filled with glass wool insulation and Insulated door.
- Air circulation by Motorized Blower force convection.
- Includes stainless steel 304 shelves with good air permeability and adjustable height.
- GMP Model Available on Request

### TECHNICAL SPECIFICATION\*

Model	BI40 ECOPLUS	BI90 ECOPLUS
Controller	Microprocessor based Auto tune PID controller with timer facility	
Chamber Volume	40 Lit.	90 Lit.
Control Accuracy	± 0.5°C	
Display Resolution	0.1°C	
Interior Dimension (W x D x H)	350x350x350	450x450x450
Exterior Dimension (W x D x H)	670x460x550	770x560x650
Power Requirement	230-240V, AC, 50Hz, Single Phase	230-240V, AC, 50Hz, Single Phase
Number of Trays	2	2
Heater & Watt	Tubular Heater & 300 watt	Tubular Heater & 500 Watt

\*The product design & specification are subject to change due to continuous R&D.

\*\* All dimensions are in mm.
